DETAILED ACTION

Drawings

1. The drawings are objected to because there is no descriptive legend provided for each of the structural elements shown in figure 1 currently represented in a form of hollow rectangles or squares. Further, there is no logic statements included in the flow chart shown in figure 2.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 112

2. Claims 1-10 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

As per claims 1 and 10, both on line 5, “the input” should be “the input vehicle deceleration” in order to avoid the antecedent basis problem. Further, the phrase “at first deactivating only said deceleration function” is vague and indefinite since no other functions are being recited in these claims.

Claims 2-9 are rejected for incorporating the above errors from the parent claim by dependency.

3. Claims 1-10 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

4. The references are cited to show the related systems. Applicant(s) should consider them carefully when responding to the current office action.
